

**Digital devices or human educators?  
Make your voice heard before it's too late.  
Speak out against SRC Resolutions A7 and B12!**

The SRC plans to earmark **\$20 million for online learning and data management** in our schools over the next two years: \$10 million for online learning and \$9.5 million for data management.

The vote will be February 15, 2018 at 4:30pm. Call 215-400-4180 to testify.

Online learning is no substitute for instruction that takes place face-to-face with human teachers.

Online learning systems profile children through massive collection of data.

Parents want learning that is not surveilled, where the content children see is not limited by corporate algorithms.

Online learning is isolating. We demand learning that is joyful and that builds community and encourages curiosity not compliance.

Together we stand against forced, child digital labor that, through data collection, generates value for private interests.

Share your opposition to these resolutions by text or in a short video clip. Phone video is fine.

**If you had \$20 million, what would YOU spend it on?**

Reduced class sizes? Reopening school libraries? Nursing staff?

Restoring electives? Addressing hazardous building conditions?

Send comments by February 12 to [alison.mcdowell@gmail.com](mailto:alison.mcdowell@gmail.com), text to 267-252-2913 or tag me on a FB live video Alison Hawver McDowell. We do plan to share this information publicly. Thank you!
